

A chance to change the world.
200,000 times a day.

There are over 200,000 students in Bucks and Montgomery county public schools. Which one will be tomorrow's next great innovator...scientist...artist...athlete...or leader? Which one will change the world?

It could be any one—thanks to the quality education these students receive every day. (According to *Philadelphia* magazine, more than half of the Top 50 school districts in the eight-county area are right here in Bucks and Montgomery counties.)

So when you support public education, you're not just helping children learn... You're building the future.
